My dear Colonel Amyot:

This is just a short note to you assuring you of our gratification at the great honour done to you in having had the C.M.G. bestowed upon you. I know that the University as a whole rejoices with you in this distinction which is a recognition of service rendered. We are all glad that your particular abilities and skill have found opportunity for use in the present war and that you have taken such splendid advantage of these opportunities. May you have many years to enjoy your honour.

With kind regards, I am,

Yours sincerely,

President.
